

**NOTICE OF SUBMISSION - DESIGN AND CONSTRUCTION REPORT  
HIGHWAY 417 NOISE BARRIER RETROFITS BETWEEN THE O-TRAIN AND THE RIDEAU CANAL,  
DETAIL DESIGN (WP 4088-07-01)**

**THE STUDY**

The Ministry of Transportation (MTO) has retained WSP | MMM Group to complete the detail design for various noise barrier retrofits along Highway 417 between the O-Train tracks and the Rideau Canal (WP 4088-07-01). The project involves the following components:

- Construction of new retrofit noise barriers at the following locations:
  - O-Train to Preston Street (south side of Highway 417);
  - Bronson Avenue to Lyon Street (north side of Highway 417);
  - Lyon Street to the Rideau Canal (south side of Highway 417 and along ramps);
- Construction of related works, including modifications to existing structural barrier walls, roadside protection, and illumination modifications, as required;
- Traffic management during construction will occur in coordination with the City of Ottawa. It is anticipated that staged lane reductions/closures, ramp closures and night work will be required to accommodate installation of noise barriers.

**THE PROCESS**

This project was carried out in accordance with the approved environmental planning process for Group 'B' projects under the Ministry of Transportation's *Class Environmental Assessment (Class EA) for Provincial Transportation Facilities* (2000), with the opportunity for public input throughout the project.
